Miscellaneous Supplies For a More Efficient Office!

Having forms that fit the application is so important to the efficiency of your office. Our medical receipt forms are designed specifically for the medical industry with spaces for the patient's name and co-pay information. The last part is not perforated to make it easy to retain a permanent record for your files.

Sometimes you want your patient to try a new drug before issuing a prescription. These Pill Envelopes make it possible for you to send a small amount home with them. Gummed flaps prevents contents from spilling.

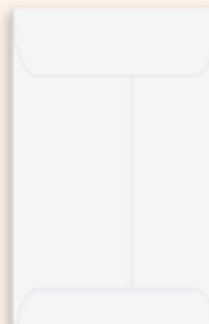

Keep track of phone calls with this generic phone message book. Contains lots of room for caller's message and all the standard check boxes. Part two remains in the book as a permanent record.

Streamline Internal Procedures

Combine your forms with labels, I.D. cards, tags, wrist bands, name tags and much more. A variety of numbering options are available to reduce error and processing time. For security purposes, special adhesives are used to produce tamper evident labels. Once attached to a specimen bottle it cannot be removed without destroying the label.

An invoice form from Preferred Dental Labs. It includes a header with the company logo and name, followed by a large table for itemized services. To the right of the table is a column for pricing. At the bottom, there is a small graphic of a tooth.

A "Welcome" card for Health Insurance. At the bottom, there are two "PREFERRED CUSTOMER CARD" inserts, each with a logo and some text. Below the cards is a small disclaimer: "Please keep one of these wallet cards with you at all times, so you'll have the information you need in an emergency."
